EVE BABER PHOTOGRAPHY AND FILM

# HEY THERE

I photograph and film people in love. It's that simple. It is also where my agenda starts and ends. Nothing more, nothing less. I adore photography and filmmaking and I am so blessed to do this as my full-time job, it is actually unreal!

As your photographer/filmmaker, my hope is that we come out of our experience together as new friends! I aim to tell your story by documenting those grand moments, along with the more quiet and intimate pieces of your day. I want to capture you as your true self — all the epic stories, laughs, and special memories that you will fondly look back upon.

My goal as your intimate wedding and elopement photographer/videographer is to focus on capturing your story while making sure that your day reflects the authenticity of you as a couple. I am fully here for you.

# WHAT TO EXPECT

I would describe myself as a documentary wedding photographer/videographer, so In essence, I don't dictate or direct but instead observe to discreetly cover events as they happen. I photograph/film your day as it naturally unfolds, capturing real moments and creating a timeless record of your day.

Connecting with the wedding and the people involved on a personal level is hugely important in creating important images/films that will be part of your family forever. I want to capture people laughing and having a great time - maybe even a bit of a boogie on the dancefloor!

For your couples portraits I will guide you through natural poses and snap away as we go through each one. But my overall approach is very natural and real.

# 6 TIPS FOR YOUR *wedding photography and film*

## #1 TRY TO STICK TO YOUR ORIGINAL TIMELINE

Creating a timeline of the day's events and sharing it with your photographer/videographer is essential to make sure all of you are well-prepared for the day.

It's a good idea to allow a little extra time between transitions or location changes from the ceremony to the reception on the chance that things are running behind schedule.

Make sure you talk me through your shot list and schedule photo sessions into your timeline for couple's portraits, wedding party, family, and any other specific requests. These will be requested in your questionnaire a month before your wedding.

## #2 CREATE A LIST OF FAMILY MEMBERS

Make sure that you get a list of family members names to me at least a week before your wedding. The list should at least have first names of all people wanted in the portraits.

Let all close family members know that you want them to stay at the ceremony site for family portraits. Sometimes family members (yes, even close ones like grandparents) forget or don't realize they need to stay for the family portraits. It takes time to gather lost family members and is much easier when they all know prior to the wedding day.

## #3 GATHER ITEMS FOR DETAIL SHOTS

The rings, bouquets, wedding invitations, jewelry, boutonnieres, shoes, and cufflinks are all gorgeous details that shouldn't be forgotten! It's helpful to rely on a wedding party member or other helper to organize these items, so make sure to keep them close!

Don't limit yourself to this list, though! If you have any items that are meaningful to your relationship (such as love letters, keepsakes/tokens, souvenirs, etc..) those make wonderful additions to your detail photos. You can also think outside the box!

## #4 CREATE A SHOT LIST WITH YOUR PHOTOGRAPHER

You've hired your dream photographer, and it is definitely within their expertise to make sure every moment of the day is captured. That being said, it is a great idea to put together a shot list with your photographer so that you make sure that the two of you are able to check off the essentials.

From the little details, to the venue setup, to couple portraits — these are all examples of photos that will tell the story of your day from start to finish.

## #5 ALLOW YOUR PHOTOGRAPHER TO GUIDE YOU

Allow me to gently guide you towards natural light and direction that will make you look and feel your best. I'm always open to creative suggestions from my couples, but I also might suggest otherwise if I see that perhaps the shadows from a nearby tree might not be your best compliment in a particular location.

Not feeling comfortable in front of a camera yet? Schedule an engagement session with me before the big day to get used to moving and posing with your partner.

## #6 ENJOY THE NIGHT AND HAVE SOME FUN!

Breathe, relax, and stay focused on each other. Do what is right for YOU TWO. Customize your wedding to your love story and what you two want. Sit back and admire all of the hard work that you (and your loving family/friends) have put into your day. Soak it all in. The best is yet to come!

# ENGAGEMENT SESSION

## *photography session advise*

### WEAR SOMETHING COMFORTABLE

This is by far one of the most important tips I can give you. Choosing outfits that make you feel like a million bucks is key. If you purchase something new, take it out for a test run. You also want to think about how it'll photograph during your session.

My biggest advice is comfort over everything. If you never wear a suit but are considering it for your engagements because it's what you have seen, just skip it and wear that band tee that you love. These photos are representative of your own personalities, and you should feel like yourselves and dress like yourselves, too.

Wearing outfits that compliment each other will help make your photos look cohesive.

## TAKE YOUR ENGAGEMENT PHOTOS IN A PLACE THAT YOU LOVE

I encourage couples to go to places they love. This could be the place where you first met, a cafe or brewery, or perhaps in your own home. Your story is unique, and your photos should reflect that. This is the perfect opportunity to visit a place or two that might be hard to visit on your wedding day. Maybe there is a hiking trail or park in your area you'd like to have your photos taken by. This is the perfect opportunity to capture memories there.

## SCHEDULE THE SESSION AROUND THE SUN

You may be familiar with the term “golden hour” aka the beautiful time of day just before the sun sets. This is when you want to shoot if you’re looking for that warm light in your photos. Planning ahead of time using your weather app to find out when sunset is ensures that you have plenty of time to shoot before the light is gone.

The early afternoon may sound like a good time for photos schedule-wise, but keep in mind that the light is much harsher at this time because the sun is directly overhead. Early morning light can also be magical, so if you’re a morning person, consider getting to your first location just as the sun starts to rise.

A wedding couple is shown in a rustic wooden barn. The bride is wearing a white lace wedding dress and holding a bouquet of flowers. The groom is wearing a dark suit. They are standing in front of a white wooden door. The background consists of dark wooden beams and planks. The text is overlaid on a semi-transparent white rectangular area in the center of the image.

*Bobbie & Danny*

We have watched some of your work on YouTube and knew that our wedding video would be good but WOW!!! It's excellent, absolutely caught the essence of our perfect day! Thank you so much for being part of it.

We booked Eve a little bit as a last minute thing when my now husband decided that he wanted a videographer to capture our wedding. We also paid for a second shooter as he wanted our rabbits to feature in the wedding video. Eve was amazing - so unobtrusive on the day most people have commented that they didn't realise she was there (in a good way) which meant she captured some beautiful candid shots rather than everyone posing for the camera. The video she has produced for us is nothing short of incredible!

# Frequently ASKED QUESTIONS

## HOW WILL WE RECEIVE OUR PHOTOS/FILMS?

Photos are sent via Pixieset, an online gallery where you will be able to view your gallery and download the photos. Films are sent via Eazyflicks.

## DO YOU BRING A SECOND SHOOTER?

Whether you want a second photographer is entirely up to you.

I shoot many of my weddings solo. I'm very comfortable and confident in my ability to capture most typical wedding days on my own. That being said, there are definitely advantages to having two photographers.

## DO YOU USE FLASH/LIGHTS?

I try and use natural light whenever possible as I think it looks the most subtle, however I do use flash where the lighting is dark and needed - e.g dancefloor shots or for a more editorial look!

*Thank you!*

Thank you so much for booking me to shoot your wedding! I can't wait to capture all the emotions and fun throughout your day, it's going to be so much fun!
